SPECULATION AS TO THAW'S NEXT COUNSEL

Prisoner's Mother Said to Be Directing Choice of Same.

SIGNIFICANT STEP BY O'REILLY

Matter of Bail for Thaw Is Still Held in Abeyance—Failing to Secure It, Defense Will Apply to Other Supreme Court Justice in New York.

New York, April 17.—Harry K. Thaw finds himself today in a rather unsettled state, legally speaking, judging from present circumstances. There is considerable speculation as to who his counsel will be in his next trial, and almost as much as to whether tentative plans to have him released on bail will be successful. It is considered significant that Dan O'Reilly, of his counsel, in having the clerk of the criminal branch of the court, locekd up in the court safe, all the exhibitis produced at the trial, took a step which would naturally be the part of an attorney of record.

O'Reilly as Spokesman.

This folowed a consultation between O'Reilly and the prisoner, and it is said to have been done with the prisoner's written authority. It is also deemed significant that, of all Thaws's counsel, only Messrs. O'Reilly and A. Russell Peabody have visited him in the Tombs lately. As it now stands, Mr. O'Reilly is acting for spokesman for Thaw, and it is reported that Mrs. Thaw, the prisoner's mother, is directing the choice of counsel and she has asked former Governor Frank Black to assume full charge of the defense at his second trial. Even again it is reported that Lionel Adams, a prominent Louisiana law, yer, or William Rand, Jr., ex-assistant district attorney, will take that place.

Jerome Will Oppose Bail.

The matter of bail for Thaw is being held in abeyance by Mr. O'Reilly. He is waiting until District Attorney Jerome returns from Lakeville, Conn., his country home, Wednesday. They are to talk the subject over, but the district attorney has already said publicly that he will vigorously oppose any effort looking to bail for Thaw. It is probable that, pending of Justice Fitzgerald's consent to release Thaw on bail, the defense will apply to some other supreme court justice in this state. It is stated that after District Attorney Jerome returns Wednesday, and the question of bail is discussed with him, the entire Thaw family, with the exception of Mrs. Evelyn Nesbit Thaw, will leave New York. The countess of Dunmouth will sail for England; Mrs. William Thaw will go to Crescent, Pa.; Josiah and his wife will go to Watch Cliffe, R. I., and Mr. and Mrs. George Carnegie will make a tour of the south. Evelyn Nisbet Thaw will continue to live at the Lorraine.

MURDERER WAS ELECTROCUTED.

Five Distinct Contacts Required Before Pronounced Dead.

Auburn, N. Y., April 17.—Edward Sexton, who was convicted at Canandaigua, three years ago of the murder of Thomas Mahoney, was electrocuted at Auburn prison Tuesday. Five distinct contacts were required before he was declared dead.

Five other men in the condemned row bade Sexton farewell Monday night. Included in the number was Chester Gillette, the murderer of Miss Grace Brown.

Passengers' Lives in Jeopardy.

Atlanta, April 17.—The lives of many passengers were placed in the utmost jeopardy Monday night, when a Howell station car was blown up by the explosion of a stick of lynamite at the corner of Ashby street and Marietta road, and the escape of the passengers and the employees of the railway company from death or serious injury was miraculous. The identity of the person or persons who placed the deadly explosive on the tracks is not known.

STRIKERS ARE DEFIED.

Attempt at Montgomery to Run Strike Breakers Out of Town Fails.

Montgomery, Ala., April 17.—With the announced intention of driving E. C. Curry, the famous Chicago strike-breaker, out of Montgomery three hundred striking street car men and their sympathizers made a demonstration in the down town districts Monday night which required several platoons of police to disperse.

Curry and Joseph Peeples, a minor official of the company, were eating supper in a restaurant early in the evening when the place was surrounded by strikers who called to Curry that he had to leave Montgomery by 9 o'clock. When Curry and Peeples left the place the hostile crowd closed in on them crying "Scabs," Scabs!" and using other epithets. Curry and Peeples with drawn pistols backed into a corner and defied the crowd.

Platoons of police were rushed to the scene and sticks were freely used to disperse the mob.

S. K. Fleming, deputy organizer of the street car union, reached the scene, and urging the men to follow, took them to the room of the police court where he addressed the assembly, counseling moderation in speech and action.

Officers of the traction company declare that if names of the men who started the demonstration can be secured they will be prosecuted.

SENATOR HELD IN CONTEMPT.

Patterson Must Pay Fine of $1,000 Inflicted by Court.

Washington, April 17.—The supreme court of the United States has dismissed the writ of error in the case of former United States Senator Thomas M. Patterson, of Colorado, in which the senator was fined $1,000 by the Colorado supreme court on the charge of contempt.

The action has the practical effect of affirming the decision of the Colorado courts. The opinion in the case was delivered by Justice Holes, who said, in effect, that the court was without jurisdiction. Justice Harlan delivered a dissenting opinion. Justice Brewer also dissented from the decision, holding that the court was not without jurisdiction.

The proceeding against Senator Patterson grew out of the Colorado supreme court's decisions in the election cases following the acrimonious state campaign of 1904.

Fruit Crop Ruined.

Atlanta, April 17.—All the reports received by State Entomologist R. I. Smith indicate that the peach crop is a total loss. He has received reports from James Cureton and T. M. Cato, of Austell, who state that all the fruit in that section of the state is killed. Mr. Smith received a telephone message from Adairsville, one of the largest peach-shiping points of North Georgia, to the effect that 80 per cent of the crop there was killed Sunday. It was stated that the fruit was practically all right until that time, but the severe frost and freeze which came then finished it.

Land Grant Suit Defeated.

Mahing, Ky., April 17.—The celebrated old Virginia land grant suit, in which millions of dollars' worth of eastern Kentucky coal lands are involved, met a second defeat in the circuit court at Whitesburg late Monday when Judge T. G. Lewis, of the circuit court, rendered a decision forever dismissing the case from the circuit court docket of Lacher county, Kentucky.

King Edward Unveils Statue.

Valleta, Malta, April 17.—King Edward on Monday after reviewing the naval brigade, unveiled a statue of the late Sir Adrian Dingli, an eminent chief justice. The king and queen will leave on Wednesday for Gaeta, whence they will go to Palermo and Finally to Naples. There the king will leave the royal yacht and the queen will continue her cruise.

Gives $20,000 to French Academy.

Paris, April 16.—Captain Carnot, son of the former president, has given $20,000 to the French academy to be added to the Carnot fund for widows and workmen who have been left with families.

IMPORTANT ARRESTS BY RUSSIAN POLICE

Plan Nipped For New Series of Assassinations.

SEVEN WOMEN ARE ARRESTED

One of the Prisoners Has Been Identified as an Accomplice of the Terrorists—All Prisoners Have Been Confined in Fortress.

St. Petersburg, Russia, April 17.—Twenty-five members of the fighting organizations of the social revoluutionists were arrested here Monday, among them being seven women.

The majority of those who were taken into custody are recent arrivals in St. Petersburg, but one of them has been identified as an accomplice of the terrorists who made an attempt on the life of Premier Stolypin on August 25, last.

The police attach the greatest importance to the captures, which are regarded as nipping in the bud plans for a new series of assassinations.

All the prisoners have been confined in the fortress.

NEXT DASH FOR THE POLE.

Lieutenant Peary Is Now Confident of Reaching Goal This Time.

New York, April 17.—Commodore Robert E. Peary's next expedition to polar regions will consist of an auxiliary ship, carrying tourists in addition to the steamer Roosevelt under the explorer's command, says the World. It is proposed to charter a vessel and load her with provisions to be cached at Etah.

It is known that several members of the Peary Arctic club, including some of the best known scientists and geographers of the country, desire to take passage on the relief ship. Others also have indicated a desire to go, so that there is a possibility of making up a party of fifty tourists. Peary is confident of reaching the goal this time. The severity of this winter must have extended to the arctic zone, he told a friend the other day, and as intensely cold winters run in groups up north, there will be comparatively little chance of "leads" or open water to retard his progress when he makes his next dash.

WORLD'S PEACE CONGRESS.

Plan Suggested by Mr. John Brisbine Walker—Will Push Same.

New York, April 17.—Announcement was made Tuesday that John Brisbine Walker has sent to the peace congress, a communication in which he suggests a world's peace congress, and offers to defray the preliminary expenses out of his own fortune.

It is stated that Mr. Walker will push his plan to the end, regardless of the determination of the body now meeting in this city. In brief, Mr. Walker's plan provides for a congress composed of the ablest thinkers of all countries, chosen for their sincerity of purpose and broad comprehension of the problem of nations.

The conclusions reached by such a body of men, Mr. Walker believes, would appeal to both rulers and people with a force which would, in the long run, prove irresistible.

Actual Cotton Will Be Basis.

Birmingham, Ala., April 17.—A movement was launched here Monday for the establishment of a cotton exchange in Birmingham. A letter signed by Harvie Jordan, president of the Southern Cotton Association; Richard Cheatham, W. R. G. Harding, president of the First National bank, of Birmingham, and a number of other men prominent in the business and financial world of the south was issued calling a meeting in Birmingham for April 23 to perfect arrangements. The plan comprises the establishment of warehouses for the storage of cotton on which warrant receipts will be issued. The trading will be done in these receipts, thus making the dealing in actual cotton, instead of futures. It is claimed that the movement is certain to terminate successfully.

WAR REPORTED ENDED.

Roosevelt and Diaz to Make Arrangements Regarding Nicaragua.

San Salvador, April 15 (Monday)—President Roosevelt has cabled President Figura that in accordance with statements made by President Zelaya, of Nicaragua, and accepting his assurance that the war has ended, he offers, with President Diaz, of Mexico, to arrange matters so that there will be no hostile agitation on the frontier between the forces of Salvador and Guatemala. President Roosevelt also says that these forces must be retired as soon as he and President Diaz, acting with the consent of President Figura, are able to give some assurances to President Zelaya, of Nicaragua, and President Babrera, of Guatemala.

President Figura is disposed to personally attend a conference at Amapala to which he has been invited by President Zelaya in order to arrange a firm basis ensuring a permanent tranquility.

President Roosevelt has placed the cruiser Chicago at the disposal of Presidents Zelaya and Figura to make the trip to Amapala.

FOUGHT ON PUBLIC ROAD.

Fatal Difficulty Occurs In Vicinity of Tifton, Ga.

Tifton, Ga., April 17.—Lennon Paulk, a young saw mill operator, about 10 miles north of Tifton, is dead, it is supposed from a blow struck during an altercation, which he had with J. M. Sherman, a sewing machine agent, whom he met in the road near Chula, and after the dispute as to who should give the right of way, a difficulty ensued, during which Sherman struck Paulk a blow on the side of the head just above the ear. Paulk went home, told his wife about the trouble, was soon after taken very ill and died about 24 hours later.

Sherman was arrested in Tifton and is in jail pending an investigation by the coroner's jury, which is now in session, and an autopsy which is being held by a board of physicians.

The deceased was a son of J. W. Paulk and a member of one of the oldest and most prominent families of that section.

Secured an Injunction.

Savannah, Ga., April 17.—A temporary injunction was secured in Judge Cann's court Monday against the city, restraining it from selling the property of money brokers, which had been levied upon because of their failure to pay the $250 license exacted by the city. The brokers claim they are bankers and are liable only for the $50 license bankers have to pay. On April 20, Judge Cann will hold a hearing to let the defendant show why the injunction should not be made permanent.

Held for Identification.

Medford, Ore., April 17.—A man who claims to be Clarence Hale, but who asnwers the description of Roy Hale, wanted in Jonesboro, Tenn., for the murder of an official from whom he was trying to escape, is under arrest here. Hale claims the man wanted is his brother. He is held awaiting identification from authorities in Tennessee.

Reconstruction of Spanish Navy.

Madrid, April 17.—Messrs. Boardmere and Roper, British naval engineering experts, have held a long conference with Captain Fernandez Nina, minister of marine, relative to the reconstruction of the Spanish navy. It is understood that the British will also be invoked in strengthening the coast defenses and improving the fortifications in the navy Balearic Isles.

Peculiarly Fatal Accident.

Chicago, April 17.—Mrs. Sarah A. Albaugh, a widow 73 years of age, was found dead on the floor of her bed room Tuesday with her throat cut. She was stricken with apoplexy while standing near the window, and fell head first through the glass, severing the jugular vein.

Snowstorm In Kansas.

Topeka, Kans., April 17—A whirling, blinding snowstorm prevailed over this part of Kansas Tuesday, with a temperature of 36 degrees.

EARTHQUAKE ROCKS TOWNS IN MEXICO

Capital of State of Guerrero Is Reported Destroyed.

UTMOST PANIC NOW PREVAILING

Many Persons Are Reported Dead and Great Numbers Have Been Badly Injured—Telegraphic Communication With Outside World Is Cut Off.

Chilpancingo, Mexico, April 17.—This city has been completely destroyed by one of the most furious earthquakes that has ever visited this section. The known dead number eleven, and the badly injured twenty-seven. Among the dead are the wife of Postal Inspector Leopoldo Lopez Guerra, and the child of Jose Aleman, the postmaster of the city. Jose Lopez Martinez, manager of the federal telegraph office, was struck on the head by a block of stone and badly injured. The utmost panic prevails everywhere, and people are fleeing to the open country. The earth continues to rock at half-hour intervals, and many minor shocks are completing the work of destruction of the first earthquake.

Number of Victims Large.

Word has reached here that the town of Chilapa has also been laid waste. As yet no details have been received as to the number of the dead and wounded, but it is feared that the number will be large.

This city is the capital of the state of Guerrero, and four years ago was visited by an earthquake which killed and wounded many of its inhabitants and destroyed a large part of the little town. The population of the town is 7,498, and until the panic into which the citizens have been thrown abates some, it will be impossible to state just what the recent earthquake has decreased it. The population of the city of Chilapa is 15,000, and that place is the home of the bishop of the Roman Catholic church who administers the ecclesiastical affairs of the entire region. No word has been received from the bishop's palace, and it is not known at this time whether or not he was a victim of the shock.

Midway between the cities of Chilpancingo and Chilapa is located the city of Tixtla. This is a prosperous and progressive community, and as no word has been received from that place, it is feared that it also has been destroyed.

Assistance Is Asked.

The following message was sent to the federal telegraph office in Mexico City from Chilapa:

"Our boys are working in a public garden. A terrible panic prevails, as the earth continues to tremble at regular intervals. Send us tents that we may establish an office out in the country."

City of Mexico, April 17.—There were no deaths in Mexico City from the earthquake.

The National Bank of Mexico has received a telegram saying that 500 lives were lost in the destruction of Chilpancingo. The telegram adds that both cities were completely destroyed.

Big Fire in Boston.

Boston, April 17.—A fire of threatening proportions broke out on the Central wharf Tuesday morning, in one of the large warehouses. Three alarms were sounded in quick succession. The warehouse is a large stone structure, standing at the junction of the Central wharf and Atlantic avenue. The loss is placed at $100,000.

Foreigners Not to Vote.

Havana, April 17.—It now appears that the proposal to permit foreigners to vote in the municipal elections will not be adopted. Some of the Spanish element here declare that they do not want to be dragged into politics. The proposition is before the advisory committee, but the chances for its adoption seems small.

PLAYED HAVOC WITH COTTON.

Recent Wind and Cold Proved Serious Problem to C. W. Stevens.

Among the prominent visitors from Hatchua to Gainesville Tuesday were Chas. W. and J. K. Stevens, Jr., who paid The Sun an appreciated call, renewing their subscriptions.

Mr. C. W. Stevens states that he has sustained a serious loss by damage to his cotton crop from the recent cold and high winds, having almost completely lost forty acres of cotton from a stand of 165 acres. Other farmers in his section have suffered in proportion, and this loss will be felt at harvest time.

Mr. Stevens drove through the country behind his fine mare, which is a thoroughbred, and of which he is naturally proud.

CATARRH CAN BE CURED.

Kill the Germs by Breathing Hy-o-mei. Gives Quick Relief.

Many people who have suffered with catarrh for years naturally feel that the disease cannot be cured, and become discouraged.

Their failure to get relief is due to the fact that they have not used the right remedy. Catarrh is an affection of the head, throat and lungs, and cannot be cured by stomach dosing.

The only scientific and natural treatment for this disease is Hy-o-mei, which is breathed through a neat pocket inhaler, so that its healing medicated air reaches the most remote air cells, kills all catarrh germs, and restores the mucous membrane of the nose, throat and lungs to a healthy condition.

Hy-o-mei is the only cure for catarrh that has ever been sold with the understanding that it was to cost absolutely nothing unless it cured. J. W. McCollum sells Hy-o-mei in this way and is always ready to refund the money if it does not relieve and cure catarrh.

The healing and antiseptic balsams of Hy-o-mei perform their purpose to perfection, and by using this remedy for a few times each day, you can soon cure yourself of any catarrhal troubles.

A complete Hy-o-mei outfit consisting of a bottle of Hy-o-mei and an inhaler costs but $1.

A Delightful Affair.

The handsome home of Mr. and Mrs. Geo. K. Broome was a scene of gaiety Monday evening, the occasion being a card party given complimentary to Miss Sallie Ruger of Jacksonville, a guest of Mrs. J. D. Stringfellow, and Miss Bessie King, and Misses Elise Walker and Marguerite Stringfellow.

There were eight tables. Progressive whist was the game, and it was played with that cleverness which demonstrated the ability of the contestants.

The ladies' prize, a silver hat pin, was won by Miss Bessie King, while the gentleman's prize, a silver blotting pad holder, was awarded to Lee Graham.

Delicious refreshments comprising ice cream and assorted cakes were served.

Friends of Mrs. Broome are under many obligations for the pleasures of the evening.

Card of Thanks.

We wish to express our heartfelt thanks to the good people of Micanopy and vicinity, for their assistance, as well as their love and kindness to us, in the long illness and death of a dear husband and father. Words cannot express how deeply were appreciated their kindness to us, during this trying time of so great a trouble, when it seemed as though heart must break with such sorrow.

God grant that should they ever be called on to pass through such grief and sorrow, that they may then "reap what they have sown," that they may be blessed with such friends and neighbors as we have been. May God bless them all.

S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acrid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. TUESDAY'S WORK AT THE STATE CAPITOL

The Cone Resolution for Inspection of Property.

THE VOTE CAST WAS 18 TO 11

Many Who Voted for Resolution Stated Reasons—Declared They Were Not Bound by This Vote to Establish Another State School.

Embraced in the work of both branches of the Florida Legislature Tuesday were several matters of passing interest. The consideration by the Senate and the passage by the constitutional vote of the Beard resolution proposing franchise amendment to constitution was the spectacular but none the less notable feature of the day. For probably ten years Senator Beard has studied the the question and this fact was most clearly demonstrated on his numerous citations. The embodied idea is of course, if passed by House also and approved by the Governor and ratified by the people, to force a case before the supreme court of the United States, testing the validity of the fourteenth and fifteenth amendments.

Then again in the Senate this morning the Hudson Bill for creation of Palm Beach county came as a sort of surprise. That it was coming all knew, but none guessed quite so soon. A large delegation from Dade county came up Wednesday night. Both sides of this new county division fight are well represented.

The winning by Lake City in the morning skirmish over reconsideration and final passage by vote is 18 to 11 of the resolution for a committee of inspection, marked the reopening of another contest which in the end may at most approximate the interest in the Buckman Bill in 1905. Lake City wants and does not disguise the fact a State normal or technological school utilising the former University buildings. Yet it is but proper to say the vote Tuesday on the resolution was not a test vote on the final qestion and was so explained by several Senators in casting their vote. And still the House has yet to act on the resolution.

Senate Proceedings.

The morning session of the Senate was called to order at 10 o'clock, President Harris in the chair.

Only one new bill was introduced at this session, being a bill by Mr. Hudson providing for the division of Dade county, and creating a new county to be known as Palm Beach county.

Following the introduction of this bill, the president announced that under the orders of the day came the motion of Senator Hudson to reconsider the vote by which the resolution, providing for a committee to visit buildings and grounds of former site of University at Lake City, was lost.

Senator Buckman rose to a point of order and claimed that upon parliamentary authority the time had elapsed during which this motion for reconsideration should have been made. Senator Adams, in reply, claimed that as the Senate was not in session, therefore, that day should not be considered "as the next day succeeding." Senator Buckman again took the floor and demonstrated his position still further, and claimed that a positive rule could not be abrogated by a custom. Senator Hudson agreed with Senator Adams, and insisted that his motion was in thorough accord with the rules and customs of the Senate.

President Harris, in ruling on the point of order raised, quoted rule 14, and declared the motion in order.

Senator Buckman briefly repeated his position in opposition to the resolution.

Senator Broome spoke in favor of the resolution, and said the buildings in Lake City were superior to any others now used for educational purposes. He said he believed we could not have too much education, but that was not the question, which was simply that a committee visit this property and report back to this Legislature. During roll-call a number of explanations of votes were made. Senator Crane stated while he voted aye, he desired it understood that he would not feel in any way bound, and did not intend to go further in this public movement for new educational institutions. Senator Hudson said he was free to act as he saw proper after the report of the committee had been made, and that it did not necessarily follow that if the State desired, that should be used for educational purposes; that the insane asylum could be put there if advisable. Senator Hudson said he had hoped this higher education had been settled two years ago, and that it was and would remain so, if this Legislature would only let it alone, and that therefore he would vote no.

Senator Beard, after making several inquiries, announced that he would vote no. Senator Massey announced a pair with Senator Withers, who, if present, would vote aye, while he himself would vote no. Senator West, of the First, announced pair with Senator Neel; the former would vote aye, while he would vote no. On roll-call the motion to reconsider was carried by a vote of 17 to 10. The motion then recurred upon the adoption of the resolution. On roll-call the following Senators voted aye: Mr. President, Adams, Broome, Canova, Clark, Cone, Crane, Davis, Girardeau, Hudson, Jackson, Leggett, Neel, Sams, Trammel, Willis, West of the Fourth, and Zim. Those voting nay were: Senators Alford, Baker, Beard, Buckman, Cottrell, Crews, Crill, Henderson, Humphreys, McCreary and West of the First. So the resolution was finally adopted by a vote of 18 to 11.

CLOSING OF ARCHER SCHOOL

A Happy Climax of a Successful Season—Marriage—Other Notes.

Archer, April 15.—The very successful term of Archer public school closed on last Thursday, and the scholars gave an entertainment at the town hall in the evening. The attendance was large, and, by the expressions of approval during and after the entertainment, showed how keenly they enjoyed the result of the careful training given them by their teachers, Prof. Main and Miss Berkstresser. Prof. Main is to be congratulated for the proficiency of his scholars. The patrons of the school feel a deep sense of obligation to him for his untiring effort in behalf of their children. Miss Berkstresser, who is thoroughly in accord with the methods and aims of the principal, aids with valuable assistance in detail for the advancement of the scholars.

The entertainment consisted of a play, a drill, recitations, music, etc. The title of the play, "Maids All Forlorn," was charmingly acted by the Misses Bauknight, Frei, Tuten and Anderson. The drill, a fair spectacle, held the audience with delight. The recitations were far above the average for selection and rendering. Master Hal. Taylor distinguished himself in a manner creditable to the teachers, with honor to himself, the enjoyment of the audience and the pride of his parents. His versitality was shown in another number on the program, a duet, with Miss Pauline Anderson, who shared the honors with him.

A solo by Miss Lola Tuten, "Hearts and Flowers," was a change to music of the purest emotion and sweetest incense.

Solo, "Spanish Dance," was finely rendered by Misses Frei and Tuten.

Mrs. Geo. Smith of Arredondo is to be congratulated on the success of the musical part of the entertainment, as the scholars are her pupils in music.

News Notes.

Miss Leila Bauknight has returned home, having spent a delightful visit to relatives in Jacksonville.

E. Lee Hughes has been quite sick at his mother's home here, but is very much better now.

W. L. Jackson met with a bad accident Monday. Parties were putting in a driven well, and by some means the windlass got away from him, the crank striking him on the head, cutting it badly. No serious results are anticipated.

Married, at the home of the bride's brother, C. A. Harrod, at this place, on Sunday evening, Miss Sadie Harrod and Mr. H. P. Prevatt, Justice Chamblin officiating. The wedding was a quiet one, only a few friends and relatives being present.

FIVE DEAD IN TRAIN WRECK.

Gas Tank Exploded—Wreckage Took Fire and Damaged Cars.

St. Paul, Minn., April 17.—Running at a speed of 40 miles an hour, on a straight track, the Great Northern westbound Oriental Limited, which left here for the Pacific coast points Sunday morning, was derailed Monday morning at Bartlett, N. D.

Five persons were killed, and a score or more injured, some of them seriously.

After the wreck a gas tank exploded, and the train took fire, seven passenger coaches being destroyed, the sleeper and observation cars escaping the flames. There is said to be some evidence that the rails had been Tampered with. Officials of the road say that the track in this vicinity had been in apparently firstclass condition, and they are unable to account for the wreck on any other theory than that it was the deliberate attempt of miscreants to wreck the train.

The wreck occurred on the line dividing Nelson and Ramsey counties, the mail-car jumping completely over the engine, and landing in Ramsey county, while the balance of the wrecked train burned in Nelson county. There were many thrilling escapes.

Reception for Georgia Cities.

Macon, Ga., April 17.—Arrangements are being made in Jamestown for a reception in honor of the Georgia cities contributing to the fund for the Georgia building and exhibit at the big exposition which is soon to open. A letter from W. N. Mitchell who is in charge if the Georgia business affairs, to Mayor Bridges Smith informed him that Macon was to be represented in this affair. It will be a brilliant occasion and all the cities sending money will have part in the affair. Macon will contibute a fund of $150 for the expenses of this occasion.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

No Further Trouble Reported.

Jackson, Miss., April 17.—A special from Gloster, Miss., says that there has been no further trouble at Liberty, where a race riot is reported to have occurred Monday. The posse is still searching for eight negroes who shot the son of Sheriff Bates. Further details of the riot state that Louis Ratliffe, a white man, was slightly wounded during the riot and that two negroes were shot. It is believed that Young Bates cannot recover.

FLUE CURING IMPROVES TOBACCO LIKE ROASTING IMPROVES GREEN COFFEE

Flue Curing Develops the Stimulating Aroma and Taste Found in Schnapps that Satisfies Tobacco Hunger

There are three ways used by farmers for curing and preparing their tobacco for the market; namely, sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured. In flue-curing the tobacco is taken from the field and suspended over intensely hot flues in houses especially built to retain the heat, and there kept in the proper temperature until this curing process developes in the tobacco the stimulating taste and fragrant aroma found in Schnapps tobacco, just as green coffee is made fragrant and stimulating by the roasting process. Only choice selections of this ripe, juicy flue cured leaf, grown in the famous Piedmont country, where the best tobacco grows, are used in Schnapps and other Reynolds' brands of high grade, flue cured tobaccos.

Hundreds of imitation brands are on sale that *look* like Schnapps; the outside of the imitation plugs of tobacco is flue cured, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco; one chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco.

Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other kind, and has a wholesome, stimulating, satisfying effect on chewers. If the kind of tobacco *you* are chewing don't satisfy, more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco.

Schnapps is like the tobacco chewers formerly bought costing from 75c. to $1.00 per pound; Schnapps is sold at 50c. per pound in 5c. cuts, strictly 10 and 15 cent plugs.

Washington, April 17.—The commission authorized by congress to examine into the business methods of the postoffice department and the postal service has engaged the services of two firms of accountants of New York, to make an expert examination into the methods of accounting expenditure in the postoffice department and postal service, and recommend such improvements in methods as will be practicable.

It is not proposed to have all the accounts of the departments audited. The present system was established in 1835. The commission, which states it is assured of the co-operation of the president and the postmaster general, expects to begin its work on May 1.

Latest reports from Russia indicate that the Czar prefers to be blown up by proxy.

There is one thing certain, a little paltry $5,000,000 conspiracy was never capitalized in New Jersey.

Twenty-eight Pittsburgers on the road to heaven; one got married, and then there were twenty-seven.

Events in Washington during the past week have made Brownsville seem like the original home of the rest cure.

It is little short of remarkable how many Republican leaders are just now making a noise like a man kicked on the shins.

Wm. D. Haywood says he don't mind being hung so much as he does being bracketed with 'Gene Debbs and Harriman.

At present, Chicago has three "mayors," but fortunately for the city only one seems disposed to draw the salary.

The perfect kiss, asserts a professor, was invented by a woman. But we will wager that some man put his mouth into it.

In nautical parlance, Mr. Bryan seems to have anchored to the government ownership proposition with a spring on his cable.

It is not quite clear whether Mr. Roosevelt's slight indisposition is being caused by the railroads, the liars or the third term boom.

Mr. Rainey of Illinois seems to have been the only statesman who bethought him of the virtues of gum shoes on the Panama trip.

Banker Walsh has already been indicted on 175 counts, and the District Attorney says there are a lot of things he did to the bank that have been overlooked.

Mayor Dunne of Chicago probably thinks now that things could not have been very much worse even if Mr. Bryan has come out openly in his support.

It must be difficult, indeed, for a railroad to explain why it could give Mississippi a two-cent passenger rate and yet be bankrupted by allowing Georgia the same privilege.

Since Ambassador Bryce has declared that he considers Chicago one of the most beautiful cities on our map, it is evident that he is trying to live up to his reputation as a diplomat.

Mr. Roosevelt thinks that a "conspiracy" has been formed to defeat him in 1908, whereas, Mr. Harriman asserts that a "conspiracy" was formed to defeat him in 1904.

Considering the record of the San Francisco school delegation that the Japs are turning up, it might be well for the President to count the spoons in the White House and see if there is anything missing there.

CONTROL RATHER THAN OWNERSHIP.

Government control of the railroads which will be quite as effective and much cheaper than ownership, is what the Interstate Commerce Commission is now aiming at and what it quite possibly will achieve. The crux of the matter is in the appointment of accounting officers who shall be sworn officers of the government though carried on the railroad pay-rolls. If this scheme in the general system of railroad accounting works out, it will be much as though the meat inspectors of the Department of Agriculture were paid by the packers instead of being paid out of a government appropriation. Heretofore one of the most prolific sources of frauds and practical rebating has been in the claims departments of the railroads which were able to favor certain shippers and allow claims for damages, which were in effect nothing but rebates. Now these claims have been taken entirely out of the hands of the operating officers and put under the accounting division. These officers, after the first of next July, will be required to make sworn monthly statements to the Interstate Commerce Commission and unless they violate their oaths, which is not considered likely, these reports will show exactly the state of the railroad earnings and expenditures. The system of all the roads will be the same and a sharp line will be drawn between legitimate operating expenses, so-called damage claims and the expenditures for leases, betterments and extensions. The reports are designed to show, and it is believed will show, exactly what a road is earning, what it is expending and how. Anyone who reads the reports will see just how much money a road is earning and what it is doing with it. A road will not be able to earn 12 per cent and pay a four per cent dividend and cover up the surplus in "leases" of short lines owned by its own officers and similar subterfuges. How well this system of open book-keeping will work or whether the officials of some of the roads will discover methods of beating it, can be determined only after a fair trial. But it is believed it will work.

CORRUPTION AND BOGUS REFORMERS.

At the Jefferson day dinner at Des Moines, Iowa, Champ Clark declared to the assembled Democrats:

"If we could compel the Harriman-Bliss-Odell gang to tell the truth about the campaign contributions, we could sweep the country. If we had a district attorney in New York that was worth powder and lead to blow him to hell, Sing Sing would be so full of these thieving Republican bosses that their arms and legs would be sticking out of the windows."

Mr. Bryan declared:

"Roosevelt is too Democratic to suit the corporations; too little Democratic to suit the Democrats. Every time he suggests the income tax, trust restrictions, or railroad regulation, he antagonizes the corperations, while on the other hand what has he done? He has been President five years; no trust magnates rest in prison cells.

"The President has done enough on railroad regulation to make the railroads mad, without doing much for the people. He compromised on a law to get votes of Republicans who voted against the LaFollette amendments. LaFollette was the only Republican that stood for the people, but no one hears of Republicans talking for him for President. He is a better reformer than the President. Mr. Taft is reputed to be the President's choice for President, but you may search his record from beginning to end in vain for a word or act of reform."

The predictions of business disaster are more and more numerous. Banker Schiff, one of the Wall Street magnates, urges the Jewish societies of New York to unite to meet coming conditions, for he says the poor are destined to face an era of suffering. Railroad magnates are also giving similar advice. Then comes the current issue of Moody's magazine advising us of the coming business depression, and as that journal is the most reliable of the Wall Street publications, its prognostications are entitled to the most serious consideration.

But how can our present trust prosperity be overthrown as long as the tariff protects those corporations? It is heresy to even think of it, the standpatters assure us.

The fact is that no one knows what will happen, as the prosperity of the United States does not depend on tariff protection. Far from it. Good crops, like we have been blessed with for the past few years, will put all the birds of evil omen to flight, but bad crops will certainly bring disaster. The farmer now, as he has ever been, is the mainstay of the nation. So if you want to know what is going to happen watch the weather.

The latest States to pass two-cent railroad fare bills are Pennsylvania and Minnesota. The railroad managers say they will test the constitutionality of the law on the ground that the rate is unprofitable, but if that is so why do they continually advertise excursions at that rate and less?

Mr. Delmas' theory of defense seems to be that Thaw was foolish to get into trouble when he did, but is smart enough to get out of it now.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SERVIAN WEDDINGS.

The Bride Collects the Gifts, Which Must Be In Money.

If you receive an invitation to a wedding in Little Servia on the west side, you must not buy a present and take it with you or send it. That would be bad form, and the bride would probably feel insulted, but when you went to the wedding you would take with you the price of the present in money.

At the wedding you would find several hundred men and women all making strange motions and talking in a strange, excited manner.

After the guests had assembled—and everybody in the colony would be welcomed—a young woman would pass around the wedding cake. Behind her would come the bride carrying a silver platter, and upon this she would collect the money given as presents. At the majority of weddings the platter is piled high with silver dollars, and around the edges are bills of various denominations, from $5 to $20. It is not uncommon for a bride to receive $1,000 in cash. This amount, it must be remembered, is given by men who are mostly laborers in the packing houses.

Sometimes the groom passes cigars, and every guest will take a cigar and hand him a dollar. Another custom is to place a dollar in the large glass of whisky and every man take a drink, each drink costing a dollar.

These weddings are a great feast for the guest, and there is always plenty to eat, and sometimes the groom rents a hall where all may dance.—Kansas City Star.

THE MONKFISH.

This Glutton Has Many Names and an Appalling Appetite.

Among the most curious of fishes is one known on the coast of Maine as monkfish, by Massachusetts fishermen as goosefish, by Rhode Islanders as the bellows fish, in Connecticut as the molligut, in North Carolina as the allmouth. On the other side of the Atlantic it is called wide gut, kettle maw and other names. Its adult length is about four feet, its weight about forty pounds.

The fish is a glutton, with no finely discriminating palate. It is said to bolt the wooden buoy of a lobster pot with an apparent satisfaction equal to that with which it swallows a mackerel.

Dogfish, sculpens, squids, crabs and lobsters are items in its ordinary diet. Its Massachusetts name is said to have been given it because of its practice of swallowing geese. Seven wild ducks are said to have been taken from the stomach of one of these fish, which had pulled them down one by one from the surface of the water.

The fish habitually lurks upon the bottom, though it is occasionally seen near the surface. It is sluggish in its ordinary movements, but very quick and ready with its powerful jaws and well fitted by nature for its mode of life. Its margins have long fringes, which sway in the currents like vegetable sea growth, deceiving the unwary prey.—Philadelphia North American.

Sandy's Narrow Escape.

"An hoo's the guid wife, Sandy?" said one farmer to another as they met in the market place and exchanged snuffboxes.

"Did ye no hear that she's dead an buried?" said Sandy solemnly.

"Dear me!" exclaimed his friend sympathetically. "Surely it must have been very sudden?"

"Aye, it was sudden," returned Sandy. "Ye see, when she turned ill we had na time to send for the doctor, sae I gied her a bit pouther I had lying in my drawer for a year or twa an that I had got frae the doctor mysel', but hadna ta'en. What the pouther was I diuna verra weel ken, but she died soon after. It's a sair loss to me, I can assure ye, but it's something to be thankfu' for I didna tak' the pouther mysel'."—Dundee Advertiser.

The Chairman's Break.

Senator Moses E. Clapp of Minnesota made a speech at Erin Corners, in his state, says the Saturday Evening Post.

His audience was very unfriendly. They howled at the gigantic Clapp, laughed at him, threw things at him and made it most uncomfortable.

Finally Clapp stopped and looked at the chairman.

"Don't mind them, Mose," said the chairman. "Go right ahead. They're nothing but loafers and rowdies. None of the decent people would come."

Presence of Mind.

A captured Turkish officer on being led forth to execution asked for a glass of water before he died. On receiving it he looked uneasily around, as if afraid of assassination.

"Drink," said the commander. "No harm shall come to thee until thou hast drunk that water."

Instantly the commander's word was given the prisoner dashed the water on the sandy ground and thereby saved his life.

The Onion Eater.

"Most of us," said a man who eats plenty of onions, "eat too much meat and grease and butter and bread and not enough vegetables, and the consequence is our systems get clogged up with grease and starch, our livers get out of order and we grumble at our wives, and scold our children, and fuss when the baby cries, and quarrel with the street car conductors, and get into rows at the office and lose our jobs, not because we are naturally sulky or quarrelsome, but because we are bilious. Why are we bilious? Because we don't eat onions. You never saw a dyspeptic man eating onions. He thinks they are poison, but, in fact, they are the medicine that he most needs. Whenever you see an onion eater you see a whole souled, open hearted, jolly good fellow, who knows what he ought to eat to keep him good humored. Talk about the staff of life, why, bread is only a crutch. There is more nourishment in an onion than there is in a roll. The onion lovers keep the world moving, to say nothing of providing it with much of its fun."—St. Louis Globe-Democrat.

Afghan Justice.

A Yorkshire engineer acted in Afghanistan for many years as director of the arsenal to Abdur Rahman. On one occasion the engineer was fired at by some fanatic in a bazaar and laid a complaint before the ameer. His highness seemed to make light of the matter, observing: "I should not bother about it. You will find it will be all right." The engineer was by no means satisfied, but, remembering the people with whom he was, resolved to say no more. A week or so later he was invited to accompany the ameer on a ride. When outside the town they passed gibbet after gibbet, each occupied. The Englishman at length broke silence by suggesting, "Your highness seems to have been busy of late." The reply was characteristic: "Oh, no. That is your little lot." It was afterward learned that the ameer had executed every male member of the family of the assailant upon whom he could lay hands."—London Globe.

Lost and Won at Shiloh.

Many an amusing incident of army life is given in Lew Wallace's autobiography. For example, he writes thus of a tented "paradise" which was lost and won at the battle of Shiloh: "Within our lines there was a drinking tent on which was written 'Paradise.' It was taken by the Confederates in the first day's fight, and the victors wrote beneath its name 'Lost.' By Beauregard's order all camp furniture was left intact, as he expected to possess the whole field in the morrow's struggle. The Union army recovered their ground by the second day's battle, the pleasure tent was retaken and to the two names was added the word 'Regained.'"

Good Judgment

Is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby—the best worm medicine ever offered to mothers. Many, indeed, are the sensible mothers who write, expressing their gratitude for the good health of their children, which they owe to the use of White's Cream Vermifuge. Sold by W. M. Johnson.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

◉ ◉ ◉ ◉ ◉ ◉

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

◉ ◉ ◉ ◉ ◉ ◉

You can't afford to accept any medicine of *unknown composition* as a substitute for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Chief, of Police Suicides.

Newark, N. J., April 17.—Chief of Police John Adams, of this city, shot and killed himself in Branch Brook park Monday. Adams had been on the police force thirty-two years and two years ago he was made chief. With the three former police commissioners, two captains and several plain clothes men Chief Adams was indicted recently for malfeasance in office in having failed to close alleged disorderly houses. It had been rumored that the police board was to have suspended all of the indicted men, and it is thought that this may have made the chief of police desperate and caused him to take his life.

Fatal Accident to Atlantan.

Atlanta, April 16.—Ralph Brown of 2261 Forrest avenue, was found dead in his dining room Monday morning with a pistol by his side. The utmost secrecy is preserved by the family, all members refusing any information. Mr. Brown was a partner of Joel Hunter in a public auditing office at room 1220 Empire building. Mr. Brown rose shortly before his death and went downstairs to light a fire in the heater. It is believed that he had a pistol in his pocket and that this dropped out and was discharged.

SPECULATION AS TO THAW'S NEXT COUNSEL

Prisoner's Mother Said to Be Directing Choice of Same.

SIGNIFICANT STEP BY O'REILLY

Matter of Bail for Thaw Is Still Held in Abeyance—Failing to Secure It, Defense Will Apply to Other Supreme Court Justice in New York.

New York, April 17.—Harr y K. Thaw finds himself today in a rather unsettled state, legally speaking, judging from present circumstances. There is considerable speculation as to who his counsel will be in his next trial, and almost as much as to whether tentative plans to have him released on bail will be successful. It is considered significant that Daniel O'Reilly, of his counsel, in having the clerk of the criminal branch of the court, locekd up in the court safe, all the exhibitis produced at the trial, took a step which would naturally be the part of an attorney of record.

O'Reilly as Spokesman.

This folowed a consultation between O'Reilly and the prisoner, and it is said to have been done with the prisoner's written authority. It is also deemed significant that, of all Thaws's counsed, only Messrs. O'Reilly and A. Russell Peabody have visited him in the Tombs lately. As it now stands, Mr. O'Reilly is acting for spokesman for Thaw, and it is reported that Mrs. Thaw, the prisoner's mother, is directing the choice of counsel and she has asked former Governor Frank Black to assume full charge of the defense at his second trial. Then again it is reported that Lionel Adams, a prominent Louisiana law, yer, or William Rand, Jr., ex-assistant district attorney, will take that place.

Jerome Will Oppose Bail.

The matter of bail for Thaw is being held in abeyance by Mr., O'Reilly. He is waiting until District Attorney Jerome returns from Lakeville, Conn., his country home, Wednesday. They are to talk the subject over, but the district attorney has already said publicly that he will vigorously oppose any effort looking to bail for Thaw. It is probable that, failing of Justice Fitzgerald's consent to release Thaw on bail, the defense will apply to some other supreme court justice in this state. It is stated that after District Attorney Jerome returns Wednesday, and the question of bail is discussed with him, the entire Thaw family, with the exception of Mrs. Evelyn Nesbit Thaw, will leave New York. The countess of Yarmouth will sail for England; Mrs. William Thaw will go to Crescent, Pa.; Josiah and his wife will go to Watch Cliffe, R. I., and Mr. and Mr. George Carnegie will make a tour of the south. Evelyn Nisbet Thaw will continue to live at the Lorraine.

MURDERER WAS ELECTROCUTED.

Five Distinct Contacts Required Before Pronounced Dead.

Auburn, N. Y., April 17.—Edward Sexton, who was convicted at Canandaigua, three years ago of the murder of Thomas Mahoney, was electrocuted at Auburn prison Tuesday. Five distinct contacts were required before he was declared dead.

Five other men in the condemned row bade Sexton farewell Monday night. Included in the number was Chester Gillette, the murderer of Miss Grace Brown.

Passengers' Lives in Jeopardy.

Atlanta, April 17.—The lives of many passengers were placed in the utmost jeopardy Monday night, when a Howell station car was blown up by the explosion of a stick of lynamite at the corner of Ashby street and Marietta road, and the escape of the passengers and the employees of the railway company from death or serious injury was miraculous. The identity of the person or persons who placed the deadly explosive on the tracks is not known.

THE STATE UNIVERSITY.

Interesting Series of Lectures, Alternated With Good Music.

Dr. Yocum, head of the Department of Education, has arranged for a series of lectures upon subjects of special interest to teachers. The first of these lectures was given by President Sledd, his subject being, "The Teaching Profession." Dr. Sledd took the high ground that only those persons highly qualified educationally, combined with an irreproachable moral character and a great spirit of self-sacrifice, should enter the teaching profession. Those seeking riches as well as those seeking a "soft snap" in the profession are doomed to disappointment. While many teachers would be dear at any price, the majority are doing a high grade of work for very low pay. The average yearly pay of a teacher in Florida is seven dollars less than the yearly pay of a convict, while it is less than half that of an average negro laborer. Nevertheless, Dr. Sledd held out great encouragement to young men wishing to enter the profession in the forcible manner in which he showed the great spiritual reward in the consciousness of the mental and moral uplift given to fellow-man, and in the feeling of mental power that comes from honest preparation for the work.

The second lecture of the series was given by Dr. Benton on the subject, "The Spectroscope." The announcement of a lecture by Dr. Benton is always a pleasing one to the students, and they greeted him with their usual large and enthusiastic attendance.

Mrs. Schmidt and Mrs. Crow have been furnishing some excellent music as a variation to the lecture programs, the number presented by Mrs. Crow giving representative compositions from English, Scotch, German and French authors.

The course of study in the Department of Agriculture has been revised so that students entering the Sub-Freshman year can get some work in agriculture. This provision was made in order that some professional training can be immediately given to backward students from the farm who might wish to enter the college of agriculture and work their way through. A short course in agriculture has also been provided consisting of two years' work in practical studies. The only requirements for admission to the short course are a thorough knowledge of the common school branches and an earnest desire to profit by the work.

Dr. Sledd recently gave a talk in chapel in which some interesting and instructive statistics were presented. While our attendance is not as great as it ought to be, in view of the liberal provisions made by the State and National Government for higher education, we have more male students in attendance here in proportion to the population of Florida than are in attendance at the State Universities of Texas, Alabama, or Tennessee, in proportion to the population of those States. Another interesting fact presented, and one perhaps not generally known in the State, is that the State of Florida has expended less than ten thousand dollars this year in the maintenance of the University, the remainder of its running expenses being provided by the National Government. The recent Legislature in Missouri gave over eight hundred thousand dollars to the University of Missouri to be expended during the next two years, besides providing an equivalent sum for the other State institutions.

JUDGE DAVIS TO STUDENTS.

Will Deliver Address to Students of University Friday Night.

The Sun has been requested to announce that Judge Horatio Davis, the well known attorney of this city, will address the students of the University of Florida on Friday evening at 8 o'clock on the subject, "The Federal Courts," which is bound to be an interesting one. Judge Davis is a fine and fluent speaker, very impressive, and those who hear him will appreciate what he has to say.

The lecture will be preceded by an interesting series of stereoptieon views of the capital and other places of interest in Washington.

EARTHQUAKE ROCKS TOWNS IN MEXICO

Capital of State of Guerrero Is Reported Destroyed.

UTMOST PANIC NOW PREVAILING

Many Persons Are Reported Dead and Great Numbers Have Been Badly Injured—Telegraphic Communication With Outside World Is Cut Off.

Chilpancingo, Mexico, April 17.—This city has been completely destroyed by one of the most furious earthquakes that has ever visited this section. The known dead number eleven, and the badly injured twenty-seven. Among the dead are the wife of Postal Inspector Leopoldo Lopez Guerra, and the child of Jose Aleman, the postmaster of the city. Jose Lopez Martinez, manager of the federal telegraph office, was struck on the head by a block of stone and badly injured. The utmost panic prevails everywhere, and people are fleeing to the open country. The earth continues to rock at half-hour intervals, and many minor shocks are completing the work of destruction of the first earthquake.

Number of Victims Large.

Word has reached here that the town of Chilapa has also been laid waste. As yet no details have been received as to the rumber of the dead and wounded, but it is feared that the number will be large.

This city is the capital of the state of Guerrero, and four years ago was visited by an earthquake which killed and wounded many of its inhabitants and destroyed a large part of the little town. The population of the town is 7,498, and until the panic into which the citizens have been thrown abates some, it will be impossible to state just what the recent earthquake has decreased it. The population of the city of Chilapa is 15,000, and that place is the home of the bishop of the Roman Catholic church who administers the ecclesiastical affairs of the entire region. No word has been received from the bishop's palace, and it is not known at this time whether or not he was a victim of the shock.

Midway between the cities of Chilpancingo and Chilapa is located the city of Tixtla. This is a prosperous and progressive community, and as no word has been received from that place, it is feared that it also has been destroyed.

Assistance Is Asked.

The following message was sent to the federal telegraph office in Mexico City from Chilapa:

"Our boys are working in a public garden. A terrible panic prevails, as the earth continues to tremble at regular intervals. Send us tents that we may establish an office out in the country."

City of Mexico, April 17.—There were no deaths in Mexico City from the earthquake.

The National Bank of Mexico has received a telegram saying that 500 lives were lost in the destruction of Chilpancingo. The telegram adds that both cities were completely destroyed.

Big Fire in Boston.

Boston, April 17.—A fire of threatening proportions broke out on the Central wharf Tuesday morning, in one of the large warehouses. Three alarms were sounded in quick succession. The warehouse is a large stone structure, standing at the junction of the Central wharf and Atlantic avenue. The loss is placed at $100,000.

Foreigners Not to Vote.

Havana, April 17.—It now appears that the proposal to permit foreigners to vote in the municipal elections will not be adopted. Some of the Spanish element here declare that they do not want to be dragged into politics. The proposition is before the advisory committee, but the chances for its adoption seems small.

CLOSING OF ARCHER SCHOOL

A Happy Climax of a Successful Season—Marriage—Other Notes.

Archer, April 15.—The very successful term of Archer public school closed on last Thursday, and the scholars gave an entertainment at the town hall in the evening. The attendance was large, and, by the expressions of approval during and after the entertainment, showed how keenly they enjoyed the result of the careful training given them by their teachers, Prof. Main and Miss Berkstresser. Prof. Main is to be congratulated for the proficiency of his scholars. The patrons of the school feel a deep sense of obligation to him for his untiring effort in behalf of their children. Miss Berkstresser, who is thoroughly in accord with the methods and aims of the principal, aids with valuable assistance in detail for the advancement of the scholars.

The entertainment consisted of a play, a drill, recitations, music, etc. The title of the play, "Maids All Forlorn," was charmingly acted by the Misses Bauknight, Frei, Tuten and Anderson. The drill, a fair spectacle, held the audience with delight. The recitations were far above the average for selection and rendering. Master Hal. Taylor distinguished himself in a manner creditable to the teachers, with honor to himself, the enjoyment of the audience and the pride of his parents. His versitality was shown in another number on the program, a duet, with Miss Pauline Anderson, who shared the honors with him.

A solo by Miss Lola Tuten, "Hearts and Flowers," was a change to music of the purest emotion and sweetest incense.

Solo, "Spanish Dance," was finely rendered by Misses Frei and Tuten.

Mrs. Geo. Smith of Arredondo is to be congratulated on the success of the musical part of the entertainment, as the scholars are her pupils in music.

News Notes.

Miss Leila Bauknight has returned home, having spent a delightful visit to relatives in Jacksonville.

E. Lee Hughes has been quite sick at his mother's home here, but is very much better now.

W. L. Jackson met with a bad accident Monday. Parties were putting in a driven well, and by some means the windlass got away from him, the crank striking him on the head, cutting it badly. No serious results are anticipated.

Married, at the home of the bride's brother, C. A. Harrod, at this place, on Sunday evening, Miss Sadie Harrod and Mr. H. P. Prevatt, Justice Chamblin officiating. The wedding was a quiet one, only a few friends and relatives being present.

SUWANNEE PRESBYTERY.

Session Got Down to Business Wednesday Morning.

The semi-annual session of the Presbytery of Suwannee, which opened in this city with the First Presbyterian Church Tuesday evening, got down to business Wednesday morning, and during the day held two interesting business sessions, morning and afternoon, with an impressive sermon in the evening by Rev. Dr. W. H. Dodge of Ocala. There was a good congregation, and those who heard this eloquent divine were deeply touched.

Rev. E. W. Way, for many years pastor of this church, but now in charge of the church at Fernandina, will preach this evening. Business sessions will be held in the forenoon and afternoon.

Card of Thanks.

We wish to express our heartfelt thanks to the good people of Micanopy and vicinity, for their assistance, as well as their love and kindness to us, in the long illness and death of a dear husband and father. Words cannot express how deeply were appreciated their kindness to us, during this trying time of so great a trouble, when it seemed as though heart must break with such sorrow.

God grant that should they ever be called on to pass through such grief and sorrow, that they may then "reap what they have sown," that they may be blessed with such friends and neighbors as we have been. May God bless them all.

MRS. GEO. CLOVERSKYTLE AND CHILDREN.

Rich Man Shot by Thief.

EPISCOPAL CHURCH A GRAND BUILDING

One of the Finest and Most Modern Churches in the State.

FURNISHINGS MADE TO ORDER

They Are Now En Route and Will be Installed as Rapidly as They Come. Mission Services Begin Today, Conducted by Archdeacon Webber.

Sunday marked an epoch in the history of the parish of Holy Trinity and witnessed the first services held in the new church.

The building is as yet incomplete, but temporary accommodations have been arranged and the congregation will be able to use the building continuously. The oak wainscoating is now on the way from Cincinnati, where it was made, and will be one of the most striking features of the church, extending around the whole building to a height of five feet, four inches. The altar, verandas, Bishop's chair and credence are now being made in Manitowoc, Wis., and will be of very handsome dark oak carved by artists from the celebrated Passion Play community at Oberammergau, Germany. The font, of white Vermont marble, and a magnificent brass eagle lecturn, will be shipped from New York in a few days.

One of the handsomest sets of stained glass windows in the South has been ordered from St. Louis and will be installed as fast as they can be made. Handsome oak doors, a tiled sanctuary floor and steps of blue Bedford stone for sanctuary and altar platform are among the other permanent ornaments for which arrangements have been made.

During the week, beginning this evening, a series of mission services will be held by Archdeacon Percy C. Webber of Boston, one of the greatest preachers in the country, and it is hoped that a deep and lasting impression will be made, not only on the congregation of Holy Trinity Church, but on the community at large. Services will be held daily at 7 a. m., 4 p. m. and 8 p. m. Archdeacon Webber will preach at every service.

The parish has been very fortunate in securing the services of Archdeacon Webber, who is one of the ablest and most eminent preachers in the country. He is by no means a stranger to Florida, as for the past two years he has held missions in the parishes of the State.

The public generally is invited to come and hear this great man.

TO ENJOY A GOOD DINNER.

There is no need of any self-denying diet list, no call for nasty disagreeable medicine, no list of hard exercise; simply a Mi-o-na stomach tablet before each meal, and one before going to bed, and it will so strengthen the stomach that a good dinner will give you pleasure and comfort without the least fear of distress.

The best proof of the value of our advice is the fact that J. W. McCollum gives a positive guarantee (applying to two 50c boxes of Mi-o-na) that your money will be refunded unless the remedy cures. A guarantee like this must give you confidence in Mi-o-na stomach tablets.

CANNON BUYS LOTS.

Has Secured a Valuable Tract Near University From S. V. Duke.

Real estate continues on the move, which is evidence of prosperity. Seldom a day passes but what some important deal is made, and every section of the city indicates activity in this direction.

The latest deal to be recorded is the purchase by E. E. Cannon of nine desirable lots adjacent to College Park, near the University. The consideration was not learned, but it is understood was quite a handsome one.

Real estate in the vicinity of the University seems to be particularly in demand just now, though the demand is good in every section of the city.

BACKACHE AND DESPONDENCY

MISS LENA NAGEL

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs has been for many years the most successful remedy in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 117 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired. Lydia E. Pinkham's Vegetable Compound completely cured me."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach. Cures Headache and Indigestion and invigorates the whole feminine system.

HUMPHREYS WANTS STATE TEMPERANCE

Threw a Bomb Into Camps of Liquor Men Unexpectedly.

MONDAY'S WORK AT CAPITAL

Both Branches of Legislature Were Busy During the Entire Day, and Many Important Bills Were Presented For Consideration of That Body.

Both branches of the Legislature were busy during Monday. In the evening, after adjournment of both houses, the joint committee under House concurrent resolution No. 1, for investigation of internal improvement funds, held its first or preliminary meeting. The organization of this important committee was perfected by the unanimous selection of Senator H. H. Buckman as chairman and Senator Thomas F. West, of the First, as secretary. The meeting lasted less than an hour and was devoted principally to informal discussions of plan and scope. It was definitely decided that all meetings for the present at last, will be held in executive session and no information will be given out except officially.

No attaches have yet been named. The committee is a strong one, consisting of seven members as follows, named in order of appointment by Senate and House: Senator H. H. Buckman of the Eighteenth; Senator Thomas F. West of the First; Senator Joseph H. Humphreys of the Twenty-seventh; Representatives Syd L. Carter of Alachua; John W. Watson of Dade; R. Pope Reese of Escambia, and J. F. C. Griggs of Franklin.

Senator Humphreys' joint resolution proposing amendments to the State constitution, embodying absolute State prohibition, was followed tonight by a mass-meeting in the Hall of Representatives, to quote from the call, to consider the questions of State wide option as applied to the liquor traffic. Whether the two had anything to do with each other is not known, but the Senator was among those present tonight.

Senate Proceedings.

The Senate was called to order at 3 p. m., President Harris in the chair. Senator Hudson moved, in accordance with his notice of Friday, that the vote by which the Senate Concurrent Resolution No. 10 regarding the committee to visit the former University buildings and grounds at Lake City, be reconsidered. This motion, under the rules, goes over until tomorrow.

New Bills.

The following were among the new bills introduced:

By Mr. Humphreys—Proposing amendment to constitution so that Section 1 of Article 19 shall read as follows: "The manufacture or sale of intoxicating liquors, either spirituous, vinous or malt, shall be, and the same is hereby, forever prohibited in the State of Florida."

By Mr. Crill—Authorizing county commissioners to require county treasurer to transfer to other funds surplus of fine and forfeiture fund.

By Mr. Massey—Relative to receipts or bills of lading, and the liability of common carriers for the property mentioned therein.

By Mr. Crews, by request—Appropriating $15,000 for monument to Florida soldiers on the Chickamauga battlefield.

By Mr. Buckman—Concerning payment of certificates of forged checks and the liabilities of banks and others therefor.

Bill 185, Mr. Zim, defining what shall constitute due diligence on the part of a bank in the collection of checks and notes.

House Messages.

Messages from the House of Representatives were received and read, and bills transmitted referred to their proper committees in the Senate.

A message was received from the Governor on the subject of State life insurance.

HOUSE PROCEEDINGS.

The House was called to order at 3:30 p. m., when the journal was corrected and approved.

Mr. MacWilliams of St. Johns asked unanimous consent to take up out of its regular order Senate Bill No. 2, by Senator Buckman of the Eighteenth, restoring the number of grand jurors to the original number, from 12 to 18. Agreed to and bill passed under suspension of rules and certified to Senate, with committee amendment making 15 the minimum. Yeas, 59; nays 0.

Following were among the number of bills taken up:

By Mr. Griggs of Franklin, that beginning Tuesday, April 16, House convene at 9 a. m., and adjourn at 1 p. m. Adopted.

House Bill No. 49, by Mr. Knight of Citrus, for necessary clerical aid to engrossing committee. Adopted.

House Bill No. 50, by Mr. MacWilliams of St. Johns, House members of committee to investigate insane asylum to employ responsible women to accompany them and report on women's department of asylum. Adopted.

By Mr. Kirkland of Lake, relating to public roads.

By Mr. Smith of Lake, nomination of county commissioners by districts.

By Mr. McKenzie of Putnam, permitting ex-Confederate soldiers and sailors to be admitted to home in Duval county.

By Mr. Kirkland of Lake, providing for sale of tax certificates at a reduced valuation where lands were assessed at an excessive valuation, under certain conditions.

By Mr. Watson of Dade—Regulating the holding of political primaries. The bill is a lengthy one, covering twenty-three printed pages. Mr. Reese of Escambia said that by a casual glance he discovered material changes in the present law, and moved that it be made a special order at 11 a. m. Thursday in order to allow previous consideration and the preparation of amendments. Agreed to unanimously.

By Mr. Dupont of St. Johns—Prohibiting the butchering of cattle on unenclosed land and providing for the butchering of unmanageable cattle by their owners, and prescribing penalty or fine between $50 and $200 or imprisonment from 60 days to 6 months or both; ordered engrossed.

HEAVY SHIPMENT OF FISH FRIDAY

Ninety-Five Barrels Went by Express to Foreign Markets.

THE FISH WERE FINE AND FIRM

The Lot Comprised a Fine Collection of Varieties—Alachua County Fish Seem to be Choice and Bring Good Prices.

As an evidence of the importance of the fishing industry in this immediate section, it may be mentioned that on last Friday there were consigned from this point by express ninety-five barrels of choice fresh-water fish of different varieties, which were caught within a comparatively short distance of Gainesville. These fish were of uniform length and size, were very choice, and were consigned to various sections of the country, principally Macon and Atlanta, both of which are great fish markets.

When one stops to figure the quantity of fish in ninety-five barrels, the figures are amazing—and more amazing when it is learned that the "catch" was a twenty-four hour haul.

This fishing industry, as unimportant as it may appear, is one of the best in this section, as scores of men are employed, all of whom receive excellent compensation for their labor. At Alachua Sink alone there are employed a large number, while other fishing grounds are equally important.

The Alachua county fish seem to be chice in the market, bringing extra fancy prices.

TUESDAY'S WORK AT THE STATE CAPITOL

The Cone Resolution for Inspection of Property.

THE VOTE CAST WAS 18 TO 11

Many Who Voted for Resolution Stated Reasons—Declared They Were Not Bound by This Vote to Establish Another State School.

Embraced in the work of both branches of the Florida Legislature Tuesday were several matters of passing interest. The consideration by the Senate and the passage by the constitutional vote of the Beard resolution proposing franchise amendment to constitution was the spectacular but none the less notable feature of the day. For probably ten years Senator Beard has studied the the question and this fact was most clearly demonstrated on his numerous citations. The embodied idea is of course, if passed by House also and approved by the Governor and ratified by the people, to force a case before the supreme court of the United States, testing the validity of the fourteenth and fifteenth amendments.

Then again in the Senate this morning the Hudson Bill for creation of Palm Beach county came as a sort of surprise. That it was coming all knew, but none guessed quite so soon. A large delegation from Dade county came up Wednesday night. Both sides of this new county division fight are well represented.

The winning by Lake City in the morning skirmish over reconsideration and final passage by vote is 18 to 11 of the resolution for a committee of inspection, marked the reopening of another contest which in the end may at most approximate the interest in the Buckman Bill in 1905. Lake City wants and does not disguise the fact a State normal or technological school utilizing the former University buildings. Yet it is but proper to say the vote Tuesday on the resolution was not a test vote on the final qestion and was so explained by several Senators in casting their vote. And still the House has yet to act on the resolution.

Senate Proceedings.

The morning session of the Senate was called to order at 10 o'clock, President Harris in the chair.

Only one new bill was introduced at this session, being a bill by Mr. Hudson providing for the division of Dade county, and creating a new county to be known as Palm Beach county.

Following the introduction of this bill, the president announced that under the orders of the day came the motion of Senator Hudson to reconsider the vote by which the resolution, providing for a committee to visit buildings and grounds of former site of University at Lake City, was lost.

Senator Buckman rose to a point of order and claimed that upon parliamentary authority the time had elapsed during which this motion for reconsideration should have been made. Senator Adams, in reply, claimed that as the Senate was not in session, therefore, that day should not be considered "as the next day succeeding." Senator Buckman again took the floor and demonstrated his position still further, and claimed that a positive rule could not be abrogated by a custom. Senator Hudson agreed with Senator Adams, and insisted that his motion was in thorough accord with the rules and customs of the Senate.

President Harris, in ruling on the point of order raised, quoted rule 14, and declared the motion in order.

Senator Buckman briefly repeated his position in opposition to the resolution.

Senator Broome spoke in favor of the resolution, and said the buildings in Lake City were superior to any others now used for educational purposes. He said he believed we could not have too much education, but that was not the question, which was simply that a committee visit this property and report back to this Legislature. During roll-call a number of explanations of votes were made. Senator Crane stated while he voted aye, he desired it understood that he would not feel in any way bound, and did not intend to go further in this possible movement for new educational institutions. Senator Hudson said he also felt free to act as he saw proper after the report of the committee had been made, and that it did not necessarily mean, if the State desired, that it should be used for educational purposes; that the insane asylum could be put there if advisable. Senator Hudson said he had hoped this higher education had been settled two years ago, and that it was and would remain so, if this Legislature would only let it alone, and that therefore he would vote no.

Senator Beard, after making several inquiries, announced that he would vote no. Senator Massey announced a pair with Senator Withers, who, if present, would vote aye, while he himself would vote no. Senator West, of the First, announced pair with Senator Neel; the former would vote aye, while he would vote no. On roll-call the motion to reconsider was carried by a vote of 17 to 10. The motion then recurred upon the adoption of the resolution. On roll-call the following Senators voted aye: Mr. President, Adams, Broome, Canova, Clark, Cone, Crane, Davis, Girardeau, Hudson, Jackson, Leggett, Neel, Sams, Trammel, Willis, West of the Fourth, and Zim. Those voting nay were: Senators Alford, Baker, Beard, Buckman, Cottrell, Crews, Crill, Henderson, Humphreys, McCreary and West of the First. So the resolution was finally adopted by a vote of 18 to 11.

Afternoon Session.

The afternoon session was called to order at 4 o'clock.

The only bills of importance to this community introduced at this session were as follows:

By Mr. Trammell—To amend Section 2910 of general statutes relative to power of railroad commission to sue in behalf of individuals.

By Mr. Adams—To provide State aid further than the one-mill tax for certain common schools.

By Mr. Hudson—To repeal Sections 777 to 780 inclusive, general statutes, relating to publication of acts of Legislature.

HOUSE PROCEEDINGS.

The House was called to order at 9 a. m. by Speaker Matthews.

The following new bills were introduced:

By Mr. Doke of Alachua, repealing Chapter 5552, Laws of Florida, Acts of 1905.

By Mr. Knight of Citrus—Salaries of certain State officials.

By Mr. Baggett of Escambia—Relating to suits against poor persons.

By Mr. Baggett of Escambia—Protection of squirrels and certain birds.

By Mr. Mathews of Marion—Pocess against non-resident defendants, etc.

The messages were read from the Senate. The House concurred in Senate amendment to the House resolution for committee to inspect convicts and camps, increasing the numbers on the part of the House from three to four.

The House adjourned until Wednesday.

It is not quite clear whether Mr. Roosevelt's slight indisposition is being caused by the railroads, the liars or the third term boom.

Mr. Rainey of Illinois seems to have been the only statesman who bethought him of the virtues of gum shoes on the Panama trip.

Banker Walsh has already been indicted on 175 counts, and the District Attorney says there are a lot of things he did to the bank that have been overlooked.

Mayor Dunne of Chicago probably thinks now that things could not have been very much worse even if Mr. Bryan has come out openly in his support.

It must be difficult, indeed, for a railroad to explain why it could give Mississippi a two-cent passenger rate and yet be bankrupted by allowing Georgia the same privilege.

Since Ambassador Bryce has declared that he considers Chicago one of the most beautiful cities on our map, it is evident that he is trying to live up to his reputation as a diplomat.

The Russian terrorists are developing strange habits. The last bomb thrown hit the man it was intended for, blew him to small scraps and did not kill or maim a single innocent bystander.

When Harriman raised that $200,000 as he says at the request of the President to save New York for the party of trusts and monopoly, he must have expected better treatment than to be added to the President's Ananias gallery.

The head of the furniture trust has owned up that he has been restraining trade by conspiring with others to advance prices on school and church furniture. Thirteen companies are in the toils of the law and are subject to fine and imprisonment.

There is evident need for a publicity law that will compel campaign managers to file a statement of the names of contributors of money and the amount given for campaign purposes and swear to it. But the Republicans will never pass such a law if they can evade it.

THE SIMPLE ISSUE.

The desperate effort being made to stampede President Roosevelt into doing what he does not want to do about the railroad issue is peculiar to say the least. Railroad magnates, with their safes full of watered stocks, Wall Street bankers with "the goods" on them and even members of the Cabinet have all tried their best to persuade the President to reassure the country on the "railroad situation." But political considerations stand in the way. The country is in no mood to be trifled with and popular opinion is heartily favoring the efforts of State Legislatures to "do something" to bring about cheaper passenger fare and reasonable freight rates. With rebates to the trusts abolished and free passes discontinued, the railroads must be making greater profits and yet the managers have conceded nothing to the people. The same old rates are being charged and yet the railroads are clamoring for President Roosevelt to help them.

How can the President help the railroads and if he could, should he?

For political reasons he may fear that the "railroad situation" may be so manipulated as to produce business depression, but that could hardly be with good crops unless the business conditions are rotten, or dependent on the railroads being allowed to continue charging unreasonable rates. The railroads are begging to be "let alone," which is always the prayer of the plunderer. The people had been led to believe that the railroad rate bill, as modified and agreed to by President Roosevelt, would give them relief. They have discovered their mistake and the State legislation, either enacted or in course of being enacted, is the natural result of their disappointment at the non effect of the new law of Congress. Many people are willing to wait for the coming Congress to pass more stringent legislation, but as that can only apply to interstate transportation, they are now helping themselves by reducing intra-State rates.

The railroad managers and bankers who are pleading with the Republican politicians to advise the President to "reassure the country on the railroad situation" must be in league to injure the President's popularity, for they both know that the most drastic legislation, State and national, is the popular ideal. The whole question at issue is summed up: "Shall the railroads continue to run the country through their Republican allies, or shall the people control the railroads?" Neither the Republican politicians nor President Roosevelt can change this issue.

ROOSEVELT'S POSITION.

President Roosevelt in talking to some of his friends last week took occasion to explain his position regarding the presidential nomination. It has been said that the President was backing the nomination aspirations of Secretary Taft and of no one else. But the President says that this is not true. The way he put it was that he was for any nominee who was not tied hand and foot by the railroad or other corporate interests before he even began to make the running. There are certain policies the President has lined out, and while these are merely honesty and open dealing, they are so utterly at variance with the business and political policies of the country in recent years that they have been looked on somewhat askance and have been termed "antirailroad" policies and "Roosevelt policies." The President says he is glad to have them known as "Roosevelt policies," though he does not arrogate to himself any copyright on honesty. But he believes that they are policies in accord with the wishes of the majority of the people and he wants to see them perpetuated. He does not care whether they are carried out by Secretary Taft or Secretary Root, though this lost is a wild assumption, or by Governor Hughes, or any other plain honest man. But there are a lot of almost-friends of the President who are not friends at all. They say they agree with him in many things, in almost all things, but as a matter of fact they are the very men who if they had a chance would be glad to bunko the public and defeat the Roosevelt policies on which they profess to look with some favor if not with enthusiasm. These are the men the President is anxious to beat and it is no secret who many of them are. The story of a conspiracy against him at the next convention is by no means new to many who are on the inside and it is a safe guess that there will be a hotter fight between the Roosevelt and the anti-Roosevelt forces before the next Republican national convention than there will be either in the convention itself or in the election that follows it.

Nursing baby?

It's a heavy strain on mother.

Her system is called upon to supply nourishment for two.

Some form of nourishment that will be easily taken up by mother's system is needed.

Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.

Mother and baby are wonderfully helped by its use.

CONTROL RATHER THAN OWNERSHIP.

Government control of the railroads which will be quite as effective and much cheaper than ownership, is what the Interstate Commerce Commission is now aiming at and what it quite possibly will achieve. The crux of the matter is in the appointment of accounting officers who shall be sworn officers of the government though carried on the railroad pay-rolls. If this scheme in the general system of railroad accounting works out, it will be much as though the meat inspectors of the Department of Agriculture were paid by the packers instead of being paid out of a government appropriation. Heretofore one of the most prolific sources of frauds and practical rebating has been in the claims departments of the railroads which were able to favor certain shippers and allow claims for damages, which were in effect nothing but rebates. Now these claims have been taken entirely out of the hands of the operating officers and put under the accounting division. These officers, after the first of next July, will be required to make sworn monthly statements to the Interstate Commerce Commission and unless they violate their oaths, which is not considered likely, these reports will show exactly the state of the railroad earnings and expenditures. The system of all the roads will be the same and a sharp line will be drawn between legitimate operating expenses, so-called damage claims and the expenditures for leases, betterments and extensions. The reports are designed to show, and it is believed will show, exactly what a road is earning, what it is expending and how. Anyone who reads the reports will see just how much money a road is earning and what it is doing with it. A road will not be able to earn 12 per cent and pay a four per cent dividend and cover up the surplus in "leases" of short lines owned by its own officers and similar subterfuges. How well this system of open book-keeping will work or whether the officials of some of the roads will discover methods of beating it, can be determined only after a fair trial. But it is believed it will work.

WATCH THE WEATHER.

The predictions of business disaster are more and more numerous. Banker Schiff, one of the Wall Street magnates, urges the Jewish societies of New York to unite to meet coming conditions, for he says the poor are destined to face an era of suffering. Railroad magnates are also giving similar advice. Then comes the current issue of Moody's magazine advising us of the coming business depression, and as that journal is the most reliable of the Wall Street publications, its prognostications are entitled to the most serious consideration.

But how can our present trust prosperity be overthrown as long as the tariff protects those corporations? It is heresy to even think of it, the standpatters assure us.

The fact is that no one knows what will happen, as the prosperity of the United States does not depend on tariff protection. Far from it. Good crops, like we have been blessed with for the past few years, will put all the birds of evil omen to flight, but bad crops will certainly bring disaster. The farmer now, as he has ever been, is the mainstay of the nation. So if you want to know what is going to happen watch the weather.

Three men than whom none are higher in official life and whom it would not be supposed were good judges of whiskey, have at least settled the debated question of what constitutes whiskey, pure, straight and mellowed by age; and what constitutes blends, and finally, what constitutes imitations. These men are the President himself, Attorney-General Bonaparte, and Secretary of Agriculture Mr. Wilson. The question has for months been seriously considered and stubbornly debated between the men representing the whiskey interests and the government chemist and the Attorney-General. In substance President Roosevelt's order is that all so-called whiskeys shall be labeld for just what they are. Straight whiskey is the only kind of fire-water that will be permitted to bear the simple name of "whiskey." This decision has been awaited with intense interest by distillers and rectifiers throughout the United States. The government's chemist, Dr. Wiley, is authority for the statement that all but a few of them are putting on the market a variety of adulterated or blended liquors which are whiskies only in name. The decision, it need not be added, is in the interest of pure food, pure drugs, and in short, straight goods and a "square deal."

It will be the middle of the coming winter before Mr. Harriman can be compelled to answer the questions that were put to him by the Interstate Commerce Commission during the New York hearing. The Commission decided only this week to appeal to the circuit court of New York for a rule to compel him to answer. The questions were objected to by Mr. Harriman and his counsel on the ground that they were prying into his private affairs. They related to the amount of money he made personally out of the Alton and the Southern Pacific railroad deals. They were rather personal questions, but if he can be compelled to answer them it will probably show that Mr. Harriman, like Richard Croker, was "working for his own pocket all the time." If this can be clearly brought out, it will show Mr. Harriman's business associates that they, as well as the innocent public, were badly done in these transactions, and it will tend to limit Mr. Harriman's activities as a promoter in the future very much indeed.

The Jamestown Exposition, which opens on April 26th, 1907, will commemorate the birth of the United States three hundred years ago. It is the object of the Exposition to emphasize the historical, educational and intellectual development of the country, and especially desirable is it that there shall be a department of Southern literature. Many books have been published by authors from the South, but in few libraries is there to be found a good collection of books by Southern authors. It has therefore been agreed that such a collection shall be secured, and that The Taylor-Trotwood Magazine of Nashville, Tenn., through its literary editor, shall undertake this work. It is believed that publishers and authors in all parts of the country will co-operate in this movement.

Events in Washington during the past week have made Brownsville seem like the original home of the rest cure.

SAFE-BLOWERS GOT A JOKE ON FENNELL

"Hooked" Four Quarts of Liquor While Imprisoned in Cell.

WERE HAVING A BIG TIME

Their Talkative Mood Suggested to Jailor to Investigate, When That Officer Found Men Had Brought Whiskey to Cell by Means of a Wire.

Sheriff Fennell, who is regarded as one of the best officials in the State, has discovered that there are others equally as shrewd as he, and even "sharper" in some instances, though that is saying a great deal. He permitted the safe-blowers, Bolton, Riley, Bennett and Harvey, to hand him a lemon in this direction Friday night.

When Captain T. E. Bridges, the State transfer agent who was taking the men to the mines, arrived in Gainesville Friday afternoon, the genial Sheriff welcomed him with his usual hospitable spirit, and proceeded to lock the noted Green Cove Springs bank robbers up for the night for safe-keeping.

It happened that Sheriff Fennell confined the prisoners in a cell in close proximity to a quantity of confiscated "blind tiger" whiskey which he had stored in the corridor. Nothing was thought of the matter, but the shrewd safe-blowers "caught on," and with a wire which they secured from around an old stove pipe in a corner of the cell they made an improvised hook, and before many moments had succeeded in hooking and bringing through the bars a quart each of "booze." They were proceeding to have a good time when discovered, and the laugh was on the officers, who took the matter good-naturedly. "That's the best ever," chuckled Riley, as he was commanded to hand over the packages. The officers agreed with him.

Three of the prisoners were taken to Dutton mines Saturday. These were Riley, Bennett and Harvey. Bolton, the man who was wounded at the time of his arrest, was taken on the afternoon train to Ocala. His condition is such that the physicians do not believe he will recover.

The men were in good spirits, and appeared anxious to begin their sentences in the convict camps. They attracted a great deal of attention as they were marched through the streets, but did not seem to object to the curious stares of the public.

Damage to Fruit Crop.

Atlanta, April 16.—Additional reports continue to arrive of the damage to fruit which has resulted from the continued cold weather. The warm days of March had given all vegetation a precocious growth; this being followed by the remarkable warm weather which has come with April, seems to have resulted in much loss of fruit, vegetables, cotton, corn and grain.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. *Why* the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

THE NEWS FROM MELROSE.

Delightful Launch Party and Picnic. Other Notes.

Melrose, April 18.—Mrs. E. M. Marshall and Miss M. Barker left on Tuesday for a trip on the East Coast.

The last service of the season at Trinity church was held on Sunday, Vice-Archdeacon Goodwin officiating. They will be resumed in the fall. At a meeting of the members the accounts of the church were presented and found correct. H. von Noszky and S. Sutton as alternate have been selected as delegates to the Diocese meeting to be held at Gainesville next May.

Quite an exciting runaway took place Sunday afternoon from in front of the Huffman House, when a double team from Waldo, frightened by the ringing of the dinner bell, broke loose and not only reduced a buggy to a scrapheap, but also demolishd parts of J. A. Remmel's fence.

The high winds prevailing during the past week have done a lot of damage to the turpentine farms by blowing down a large number of the boxed trees.

Mrs. H. W. Hamlyn gave a most enjoyable launch party and picnic in honor of Miss Helen Johnson on Thursday afternoon. During the very delightful trip across Lake Santa Fe the party was treated to a rare sight in the shape of a large white sea gull hovering for some time over the boat. It had evidently been blown in shore by the recent high wind; when last seen the bird was heading towards the Atlantic coast. A landing was made in the canal, and after a stroll in the woods delicious refreshments were served and much appreciated. The return trip was a regular "Saengerfest," winding up with three hearty cheers for the hostess.

BABY WASTED TO MERE SKELETON

In Torments a Year and a Half with Terrible Sores on Face and Body —Hands Tied to Stop Scratching and Tearing at Flesh—But

CURE BY CUTICURA COMPLETE AND SPEEDY

"My little son, when about a year and a half old began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My aunt advised me to try Cuticura Soap and Ointment. So great was her faith in it that she gave me a small piece of Cuticura Soap to try and a little Cuticura Ointment. I took it home without any faith, but to please her I tried it, and it seemed to dry up the sores a little. I sent to the drug store and got a cake of Cuticura Soap and a box of Cuticura Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any sores of any kind since. He is now strong and healthy, and I can sincerely say that only for your most wonderful remedies my precious child would have died from those terrible sores. I used only one cake of Soap and about three boxes of Ointment. Mrs. Egbert Sheldon, R. F. D., No. 1, Woodville, Conn., April 22, 1905."

ITCHING PIMPLES

I am so pleased with Cuticura Remedies that I will recommend them to other sufferers. Mrs. Florence Delavergne, R. F. D. No. 2, Auburn, Neb., Aug. 28, 1906."

More Than a Hundred Enjoyed Hospitalities of Club Tuesday.

In celebration of their success achieved in the municipal election Tuesday of the past week, the Municipal Club tendered a fish chowder to its members and the city officials. The chowder was held in the Burnett grove, corner East Union and South University streets, and was prepared under direction of that famous chowder-maker, Judge J. A. Carlisle, assisted by "Uncle" Dave Robertson and Thomas Boulware.

Considerably more than a hundred plates were served, and altogether the affair was a big success.

VISITOR FROM THE KLONDYKE.

Gerald Petre Comes to Visit His Brother Who is Now Living Here.

Among the prominent visitors to this city is Gerald Petre, who is on a visit to his brother, O. Petre. Mr. Petre makes his home in Dawson City, Alaska, where he holds a government position. He is now on a six-months' leave of absence.

He declares that the time has passed for poor men who are speculators. While as a matter of course they are welcome, their "stakings" are similar to working a farm on shares—the other fellow gets the best.

Mr. Petre is a great personal friend of Elmer E. White, at one time connected with The Sun here, and who is now publishing a paper at Whitehorse, Y. T.

MR. DOW'S MISFORTUNE.

Was Stricken With Paralysis While Seated at His Desk.

From Tuesday's Daily Sun.

While seated at his table writing a life insurance policy, W. E. Dow, one of the most prominent of the younger business men of Gainesville, was stricken with paralysis about 2 o'clock Monday afternoon, and later taken to his home, 109 West Court street, where he now lies in a helpless condition, his entire left side being rendered useless.

The information of Mr. Dow's misfortune was a great shock to his wife and friends, as he appeared in excellent spirits up to the time of the attack. As soon as the attack was noticeable Drs. J. H. Colson and J. F. McKinstry, Jr., were summoned and rendered all professional aid possible.

At a late hour Monday night the patient was resting as easily as possible under the circumstances, and his friends hope he will soon recover. Mrs. Dow has the sympathy of the community in her husband's misfortune.

It will be very gratifying information to the friends of W. E. Dow to learn that his condition was somewhat improved last night. Mr. Dow is receiving the best of attention from his devoted wife and a professional nurse, and it is hoped that he will be entirely recovered in a few days.

Letter to Benson & Son, Gainesville, Fla.

Dear Sirs: Take a two-story house and reckon the costs with different paints; you will be surprised. Say the house has a total of 3210 square feet.

Divide by 300; you buy 11 gallons. That's the rule; but it never comes out so.

Buy any other paint than Devoe, you will have to buy more, up to possibly 22 gallons. Paint Devoe, and you'll have a gallon or two to return. Here are some experiences:

N. R. Watkins, Lott, Texas, used 13 gallons on his home before; bought 13 gallons Devoe for same house and had 6 left.

C. B. Edwards, of Edwards & Broughton, printers, Raleigh, N. C., used 30 gallons paste paint on his house; bought 30 gallons Devoe for same house and had 16 left. Go by the gallons.

Yours truly,
27 F. W. Devoe & Co.

P. S.: The S. J. Thomas Co. sell our paint.
